VOLUME SIX NUMBER 56

We bring before We bring before the reader the announcements of the CCF which they have sent to us for publica-tion. Although we don't feel quite certain that their promises will be fulfilled, Man finally gets tired of all the political parties coming up with great pomp and cry and pro-missing heaven on earth and after they are elected everything re-mains the same or gets worse.

But we live in a free country and election is a part of lifes duty for the citizens, so may any one do like he feels as his duty requi-

Mr. Byron C. Henricks, C. C. F. the Provi stituency of Gleichen in the forth coming Provincial election, ia well knwn farmer of the Irricana Disknwn farmer of the Irricana Dis-trict. He came to alberta in 1907, took his Public and High Schooling at Calgary and later spent three years in obtaining a commercial cation. He has been on the Ir-ricana School Board for many years and Justice of the Pesice for to past six years.

Being a married man with four children Mr Henricks feels quite concerned over the future of our society in general and of youth in particular. He believes that a fund-amental change in the conduct and management of our social structure is absolutely essential, and long over-due.

Here is Mr Henrick's message,

"For the past few weeks you have read many descriptions of the CCF policy which are put out for the sole purpose of scaring you out of forming a go't controlled by yourself. The following brief state-ment may clear up some of the main issues concerning CCF polof the

The CCF stands for absolute se-curity on his farm for every far-mer, regardless of the position we-ather and prices may put him in. Farming is a very essential indi-vidual business. The story that we stand for the scelalization of land is sheer nomense, and no hint of such policy enters into the CCF platform or Constitution. The CCF stands for absolute se-

The CCF believes that the above services must be provided through new income and not by additional axadition. This, new income should be the revenue from the public operation of the natural resources of the province, which must be taken over by the Province in an orderly and fair manner, with payment to the present operators at a fair valuation.

### Democracy IN RUSINESS

The co-operative movement is democracy in business. As it depends on human agencies to conduct it, it can never be perfect, but it is a long way a-head of the capital stock company and the modern trust corporation.

Co-operation does not exist in law or in formula. It exists in the minds and hearts and pur-poses of the people. It is founded on mutual con-fidence and trust. With the development of these ideals people can make a success of co-operation.

mers of this province. It has demonstrated its eff-iclency as a business organization and also its adherence to the co-operative principles. To make it a greater success their ever, it needs the in-terest and support of a greater, number of the farm people of this province.

What an awful price is exacted by the accident hazard! According to the National Safety Council's preliminary figures, 100,000 dead; 373,000 permanently injured and 9,00000 temporarily disabled make up the accident toll for last year. The allowant will be tax free thousand that where a bread-nine is now exempt from income tax and the allowance payment raises his earnings above the exemption level, he will not have no by income tax. Though the allowance is graded according to the age of the child, the average payment will be about \$40.25 for each shill. The average cheque will probably amount to upwards of \$118 a month, with larger families receiving \$30 a month or more. A big proportion of the famili

One big feature of the act is that all children living in Canada, whether or not their parents are nat-tive-born or naturalized Canadians, are eligible for the allowance. The

plan is to help every family improve its standard of living for the benefit of all children in the Dominion.

### Is Aphid Damage Really Serious?

Really Serious?

Aphids can be terribly destructive. Scientists have counted in the neighborhood of 25,000 individual aphids on a single tomato plant. If on you right and day, constantly drawing blood, it would be a severe drain on your system. Your garden plants find this same drain on their life blood which is the any
